

TRIBAL CULTURE MENTORING

On the tribal side, Daysam is closely connected to elders & youth of Secwepemc Nation. He keeps culture alive through language preservation & mentorship.

Through arts & crafts, story-telling, teaching survival skills, etc. he can help students with their cultural explorations.

Working closely with elders who co-mentor alongside him through shared agreements, he brings students to local events, exposes them to learning opportunities, and provides transportation to & from tribal events, all the while, being a great liaison.
